Wastewater Rates Budget and exercise

Wastewater management is an important part of town government. The public can download [this document](#) to review the wastewater budget and projections. Change the rates in the yellow BOX to change the budget figures. Keep an eye on the first and last lines, which represent the projected department balances at the beginning and end of the year. The sewer operating and capital projects come out of this budget so keep in mind that cash flow is key and balances should continue to be at or near \$1m

to ensure the system is able to operate and anticipate emergencies.
